# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Family First

*Ascendant in Cancer*

Your approach this year is cautious, because you care and you want to show that you care. The challenge is not in the intent but in the delivery, as you need to take control where it is important but can't afford to waste your inner resources where they are needed or don't deliver mutual return. When your heart is on your sleeve, there are too many wanting to relieve you of it, but when you play your cards close to your chest, sometimes it can be a lonely game. This year you'll want a creative balance between the two, because you need to move forward with what moves you inside.

### You Appear

*Sun Conjunct Ascendant*

This is a very up-front, in-the-lead, personal kind of year for you, in which what they see is what you are and you're quite aware of having to live your image. There's a lot of extra confidence to add to the mix, and there's a physical boost involved that supercharges the feeling. Time to make your move.

### Values Are Apparent

*Venus Conjunct Ascendant*

Charm will get you everywhere this year, and you'll naturally put on your best face when you get up in the morning and wear it all day, if for no other reason than it gets results. If you put on a happy face, people just do more things for and with you. Sounds so logical, strange more people don't get it.

# The Foundation for Your Year (continuation)

## Examining Action Arises

*Mars Sextile Ascendant*

You'll be picking up a lot of energy and physical support from your friends this year, so don't hesitate to let the cheering section urge you on and even lend a hand in your efforts. The more enthusiasm happening around you, the stronger you'll be and the more work you'll get done as a result.

## Physical Conservation Arises

*Saturn Trine Ascendant*

A careful, more conservative and less playful approach may be in store for you this year, or at least that's how you'll appear to others. It's not that you're no fun, just less likely to buy every new product before it's even out of the box. Better to be redolent in the old joys than dive into a new one with less certain prospects.

## The Midheaven

## Your Reputation, Career, Life Path

## Manage Action

*Midheaven in Aries*

The word is out about you this year a lot more quickly than you might think, but it may not be very accurate when hot off the press. Be prepared to deflect premature rumors while accepting unexpected praise only halfway through the game. In the end, it's the end that counts, however, so don't forget it.

## Manage Emotional Stenghtening

*Moon Trine Midheaven*

Because your reaction is financial, your benefits will be substantial as far as the fame game goes this year. Your feelings lead you to make tangible moves and not take theoretical stances, so you're always in at the head of your own game, kicking your career endeavors up a notch each time you've got the opportunity.

## Manage Intellectual Growth

*Mercury Trine Midheaven*

Ideas you have about the more physical and mundane sides of life this year will go a long way in supporting your overall reputation and getting your image out to the public. Clever management of resources, efficient use of time and money, all are on the table for reconsideration and conceptual improvement.

## Manage Building Value

*Venus Trine Midheaven*

To labor is to pray, according to Benedict, which in part means that you raise yourself up when you lovingly attend to the smallest of things. Good works that come from you bring good words about you, and that process becomes easier than usual this year because you really enjoy doing it.

## Manage Accepting Change

*Uranus Sextile Midheaven*

Unexpected developments in hidden places benefit your career and reputation this year, and you may not even know about them until well after. Sometimes the dice just fall the right way, even when you don't know you're in the game. You can take it for granted, but don't take credit for what you didn't do.

## Manage Practical Spirituality

*Neptune Conjunct Midheaven*

All kinds of imaginary things are being said about you this year, which bears some monitoring on your part, since that could do wonders for your reputation or completely confuse people's expectations when you show up for real. You can easily fly a false flag when you need to, but be ready to haul it down when the action starts.

## Manage Examining Power

*Pluto Sextile Midheaven*

You've got support you don't know about this year, forceful friends that are smoothing your way not necessarily because you deserve it but because the situation demands it. So if you act like destiny is on your side, you're probably on the right track, but don't take all the credit for it.

## The Sun

## Your Inner Personality and Style

## Acceptance

*Sun in 12th House*

This year you may find your light is hidden undercover more than you may expect or want, for reasons that may be outside your knowledge. It's a good time to play a role behind the scenes, as you'll instinctually know what's going on there and can pull the appropriate strings. Trying to be too out-in-front could get you blindsided, however, so a cautious approach is in order. You may particularly identify with those in distress, having been there yourself, but take care you don't rush onto thin ice yourself to make the rescue. Inner reflection is a major factor this year, as that is where your heart is.

## Love of the Future

*Sun Conjunct Venus*

Your purpose this year is to please and be pleased, which sets a pleasant tone on everything, whatever else happens. As with birthday presents, the assumption may be that what you want is what others want, too, and that may not be the case, so make sure your desires are on the same track before you spend.

## Planned Effort

*Sun Sextile Mars*

You won't know where you get your inner energy from this year, but you won't really care either, as your eye is on the ball and not on the bat. You're into an inner rhythm that gives you enough to work with easily, so you don't give it a second thought, though you probably should be thankful for the blessing.

## Building Discipline

*Sun Trine Saturn*

Support comes from traditional quarters this year, so feel free to lean on previous experience and contacts to shore you up and sustain you when the new stuff fails to produce to expectation. No point in reinventing the wheel when you've got a reliable set ready to roll, proven, tried and true.

## The Moon

## Your Feelings, Reactions, Emotions

## Creative Support

*Moon in Leo*

Your style may take a turn for the more dramatic this year, as feelings that might otherwise be muted or held in place find new channels of expression that puts them on stage with flare and perhaps even bravado. Why simply respond when you can take the opportunity to perform and more elegantly display your take on the situation? In general, you're more likely to run with whatever occasion arise to make things more fun, playful, and creative whenever you get the chance. If life is a stage, your scene is coming up so get in there and break a leg, as they say on Broadway.

## Tough Support

*Moon in 1st House*

You are likely to lead strongly with your emotions this year, and your feelings on any matter at hand are likely to be up front and forcefully stated. This can allow you to sell your point of view in the marketplace or engage in any kind of give-and-take repartee from mere banter to deep heartfelt discussion. Your reaction time will be sharpened in general, but so will your sensitivity and inclinations to take things to heart that loom larger than reality to you. Magnifying the moment makes time so much more intense to you, but that may not be the case with others, so take their temperature, too.

## Fresh Ideas

*Moon Conjunct Mercury*

You're quick with a word this year, and it will usually be the right one, immediately appropriate to the situation at hand and how you feel about it. Emotional expression is clear and even witty, and you needn't agonize or plumb the depths to say what you really mean. It's right there on the surface, what you say is what they get.

## Insight Into Feelings

*Moon Conjunct Venus*

Your desires are on your sleeve this year, and your first reaction is usually to unabashedly reach out and take. There's nothing like the direct approach to get what you want, and when you're clear about it, so will everyone else be. The outer effect is insouciant charm that sometimes takes people aback, makes for cooperation.

## Embody Inspiration

*Moon Trine Neptune*

Intuitive reactions will get you everywhere this year, and rolling with a hunch will lead to another even better one, and so on. Don't try to explain it too much or you'll lose the beat, but when you're in tune, you'll know it. Play it like you feel it and let the rest happen by itself.

## The Experience

*Moon Opposite Pluto*

Confrontations and power plays can put a damper on your emotions this year, as feelings get blocked for reasons that may not be really clear but seem to have definite cause. It's a passing thing, so don't act too quickly to blow away the opposition, as you may find that to be totally inappropriate and a waste of inner resources.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Creative Ideas

*Mercury in Leo*

Big ideas with lots of scope and ambition characterize your thinking processes this year, and there may not be the time or inclination to pick up all the stitches. That's what delegating authority is about - just make sure you do it. Your mind is like a championship stadium field, and there's a big game going on.

### Sharp Communications

*Mercury in 1st House*

Ideas come right to the surface this year, slipping out before you know it like extensions of your personality. Even if you didn't make it up, the way you put it sounds like you did, because it's got force and sales power behind it. Saying is believing, however, so remember you're responsible for it.

### Patient Words

*Mercury Sextile Jupiter*

Small steps of logic lead to big conclusions this year, and you won't need great leaps of the imagination to migrate to the leading edge. Smooth development based on business as usual takes you farther than you might envisage at the start if you let things develop on their own and don't push to produce.

### The Experience

*Mercury Opposite Pluto*

Every now and then your plans will hit a brick wall this year and it will seem there's no way through. Like writer's block, you go blank in the solutions department. Don't beat yourself (or anybody else) up about it, as detours are available, and if you just sit and wait, the obstructions will dissolve of themselves as circumstances evolve.

## Venus

## Your Needs, Wants, Desires

### Love of Home & Family

*Venus in Cancer*

Desire is sweetened when the prize is yours and yours alone, and you'll be most satisfied when you can nourish your small pleasures into big ones without too much sharing going on. That doesn't mean you're not in the mood to give - quite the opposite - but it's important to be in control so it properly comes to flower.

### Direct Love

*Venus in 1st House*

Looks are important, and this year you're leading with them, so check the mirror every now and then. Use charm and friendly persuasion to represent yourself, because that's the real you, not a put-on. You get what you want by simply being up front about it and asking, as if it were your natural expectation.

### Sublimation

*Venus Sextile Mars*

Work and play alternate in easy steps ahead, and when you set your sights on the possible, it's already in your pocket. That's a sure-fire recipe for comfort and satisfaction, and since it comes naturally for the moment you won't even have to go over the recipe. It's a slow hand and a gentle touch, much to be desired.

### Building Discipline

*Venus Trine Saturn*

By stretching out your resources this year, you'll have all you need, and you won't have anything to waste and throw away at the end. That comes partly from knowing how to rein in your desires, and partly from knowing you have to. Ultimately, it's both trim and satisfying, emotionally, physically, and financially.

### Slings and Arrows

*Venus Sextile Uranus*

Tastes change in small increments this year, and although you may not notice it along the way, you'll have discovered a whole new world of satisfactions you didn't even consider before you began. Like fireflies in summer, first there's one little flash, then another, and before you know it your field's on fire.

### Building Unity

*Venus Trine Neptune*

A major limit to getting what you want is your ability to imagine it realistically – and that's not an easy prescription. This year you're likely to approach it pretty closely, as tonight's dreams tend to become tomorrow's realities, partly because your sights are well-set, partly because you're in hot pursuit.

### The Experience

*Venus Opposite Pluto*

It's easy to make much of frustrated desire, and this year may have some lessons in it, as roadblocks intermittently appear which block you off from what you want or need. Don't assault the walls of Troy when you've got a wooden horse to carry you through the gate. Clever runarounds or simply waiting it out will get you where you're going soon enough.

## Mars

## Your Energy, Life Force, Excitement

### Urge for Growth

*Mars in Taurus*

Doling out your energy in workmanlike packets is the way to go, because you'll get more mileage if you don't pump the accelerator. It's all about building up strong momentum so that the job does itself once you're up to speed. Take the patience to craft your efforts well and they'll work for you long after.

### Community Drive

*Mars in 11th House*

Forging your circle of friendship, your important connections, the reliable space station that you'll count on to sustain you and take you from the planet to the stars, that's your major energy-burner this year. The ladder between earth and sky is where you're living, so make sure it's sturdy and climbable.

### Hitting a Wall

*Mars Sextile Saturn*

Gradual efforts get you everywhere this year, as you don't have to do heavy lifting to raise a great achievement. Like bricks, you pick up one at a time and pretty soon you've got a solid building you couldn't possibly erect all at once. One careful step at a time and watch it rise like a cathedral...

### Ideas of Freedom

*Mars Conjunct Uranus*

The temptation for sudden, severe action is great this year, and it's all a question of how careful you are deploying it. You can take careful aim and hit like an atom bomb, or you can shoot from the hip and miss, your call. It simply rests on your ability to control and focus highly explosive energy at your command.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Communications Career** *Jupiter in Gemini*  
 A year of multiple plans and schemes is ahead, where everyone talks a lot about what they're about to do, but not all of it will be decided or acted upon. There's more discussion than action, and lots of avenues are explored before narrowing down the options. Multitasking is a must, because there will always be more than one iron in the fire.

**Community Career** *Jupiter in 11th House*  
 The opportunity for gaining close friends expands this year, perhaps to the point of deciding what close really means. Important new people crowd in, but who will last will be the question. Not the worst of problems, but decisions will have to be made, final choices embraced and brought home.

**Saturn** **Caution, Wariness, Wisdom, Boundaries**

**Obstacle: Sacrifice** *Saturn in Pisces*  
 This year will produce the end of many illusions and hard times for those who perpetrate them. Matters of unconfirmed belief are likely to be tested, and those who have relied on intuition alone to get by may have to take a more tangible and practical approach. Real and imagined spirituality are set side by side to see which passes the test.

**Obstacle: Spiritual** *Saturn in 9th House*  
 Sometimes life is conceptually a lot simpler than it seems when reading the news. This year may illuminate, as you come to focus on the important concepts by which life should be lived and get rid of some of the speculative nonsense. Perhaps the good old ways have something to recommend them, after all.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

**Uranus** **Discovery, Revelations, New Ground**

**Freedom: Productivity**

*Uranus in Taurus*

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

**Freedom: Community**

*Uranus in 11th House*

Insight from friends means insight into friendship for you this year, and that may not always come in expected ways. What seems a shock at first may turn out to be the gates to discovery to get to better know and understand who your closest supporters really are – and how close you are to them.

**Spiritual Energy**

*Uranus Sextile Neptune*

This year is one of a larger set (most recently centering around 1966) that occurs only twice every 172 years and is reputed to have the effect of spiritual progress upon society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

**Accumulating**

*Uranus Trine Pluto*

This several-year period (most recently centering around 1922) occurs only twice every 128 years and is reputed to have the effect of uniting political power and technological progress in society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

## Neptune

## Dreams, Hopes, and Fantasies

### Embrace: Life

*Neptune in Pisces*

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

### Embrace: Spiritual

*Neptune in 9th House*

The bigger the idol, the more plentiful the worshippers, the more likely its feet are of clay. This is a lesson for the year, so watch out who and what you put on a pedestal, as much of it may be your own imagination and hide a hollow center. Projecting yourself upon the heavens, however, is the first step to going there.

### Change Blocked

*Neptune Sextile Pluto*

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

### Control: Community

*Pluto in Aquarius*

A generation-long period is underway in which spreading equality of opportunity is a prime cultural force, a time to re-forge society and hand it to the common people. Independence of operation is the order of the day, as is great expansion. The resulting generation, however, will have a hard time holding together what results as a unity.

### Control: Public

*Pluto in 7th House*

Domination in the personal sphere may be a real issue when you find yourself in yes-or-no positions with a partner and it's my way or the highway. There are other roads to follow, in fact, if you both agree to eschew the one you're fight over. So often, if it's worth fighting about, it's worth your walking away from.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Mercury

### Your Mind and Intellect, Thoughts and Plans, Communication

#### Fresh Ideas

*Moon Conjunct Mercury*

Really feeling what you say is a theme for the year, as your new emotional take is tied to your talent for figuring things out. So articulating your reactions come easy, and while others are still stammering to say what they mean, you've already hit the nail on the head with the first words out of your mouth.

## Saturn

### Caution, Wariness, Wisdom, Boundaries

#### Ideas of Discipline

*Mercury Conjunct Saturn*

You can see and understand your boundaries, and good fences make good neighbors is something everyone around you can understand and agree with. When you make it clear where one plan stops and the next begins, everyone feels more comfortable about where they stand and where they're going. Clarity begets confidence.

## Mercury

### Your Mind and Intellect, Thoughts and Plans, Communication

#### Ideas of Love

*Venus Conjunct Mercury*

Clever and pleasing turns of phrase are likely to be your signature this year, as what you have to say is what everyone wants to hear – not even because of the content, but because you say it so well. That's more than just surface beauty, as it comes from an inner understanding of form and balance you're currently tapping.

## Mars

### Your Energy, Life Force, Excitement

#### Accent on Action

*Mars Conjunct Mars*

This year is a work-cycle peak, when new projects, new positions, new energies come into play and you find yourself gung-ho to get going with what's just made itself available for action. That can mean more money and more effort expended to get it, but you'll have enough to spare, at least at the beginning, fueled by enthusiasm for the new.

## Featured Natal Positions (continuation)

### Venus

### Your Needs, Wants, Desires

#### New Ideas

*Uranus Conjunct Venus*

You are at a point when you may experience a considerable shaking up of the things you desire and how you desire them. Situations and people you used to crave will suddenly appear of little worth to you, while new areas of pleasure you never explored open up - open yourself up to them in return.

### Mars

### Your Energy, Life Force, Excitement

#### Ideas of Freedom

*Uranus Conjunct Mars*

This is a very high-energy and sometimes risky period and real caution should be taken during its effect. It is very easy to overdo things, overshoot the mark, resulting in accident or injury. A great intensity is upon you, to be used with optimum skill and care like a fine weapon or racing car.

### Sun

### Your Inner Personality and Style

#### You Appear

*Ascendant Conjunct Sun*

Your personality, the inner you, is going to seem a lot more like the outer you this year, which gives you a lot of inner strength and consistency, because what they see is what they get, easier for everybody. It also makes you a little bit too obvious now and then, so be willing to let up on the throttle now and again.

### Mercury

### Your Mind and Intellect, Thoughts and Plans, Communication

#### Thoughts Arise

*Ascendant Conjunct Mercury*

You can put out a convincing story this year because you not only look like you believe it, you look like you should be playing the lead part in it. Central casting would definitely choose you to act in your script. It also means that if you're talking to the wrong customer, the instant shutdown will make it obvious you should move on to better pastures.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jul 07, 2024 to Jul 7, 2025

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

**Values Are Apparent**

*Ascendant on Venus (PSR-SR)*

You look so good today you could kiss your mirror, but let someone else do that for you instead. When you feel especially charming and desirable, that's what you project, so this is the perfect day or so to get out there and woo who and what you want, because they're going to want a piece of you, too.

**July**

**Thoughts Arise**

*Ascendant on Mercury (PSR-NA)*

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. Yes, you really are cleverer than you thought, and it's a couple of days to make the most of your own articulation.

**Ideas of Freedom**

*Mars Conjunct Uranus (TR-SR)*

A general tendency to fire off too fast, shoot from the hip and miss, and boil over unpredictably marks this as a very volatile time. Accidents abound, tempers flare, and sudden moves bring cause for regret. Look both ways crossing the street and avoid potentially explosive situations -- and don't fly off the handle yourself.

**Tuesday**  
**July**  
**16**

**Love of the Future**

*Sun Conjunct Venus (TR-SR)*

Ego compounding desire can make this moment hot but nearsighted at the same time. In the passion of the moment all are more likely looking out for number one than for the general good, and the possibility of missing the long-range win is real. Seek what you want, but remember you'll still have needs tomorrow.

**Manage Practical Emotions**

*Midheaven on Moon (PSR-NA)*

You really care, and you show it with your own little broadcast of your reactions to the situation. A good day or two to get the word out about yourself, sell your image to the world.

*Ascendant on Moon (PSR-SR)*

Here's a day or so when feelings suddenly come to the fore, when you just can't help yourself and let out your emotions or even push them forward as they seem the only way to really address the current issues. Strong reactions beget strong reactions, so expect it to be intense for a while until the waters settle.

**Teaching Ideas**

*Sun Conjunct Mercury (TR-SR)*

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

**Career Ideas**

*Mars Conjunct Jupiter (TR-SR)*

Boundless energy and enthusiasm can overwhelm, like a herd of runners all attempting the hundred-yard dash. You may want to think about not joining that herd but siphoning off some of the energy around you in a more reasoned way. Overweening eagerness lacks staying power, but ardor can be a thrill when channeled.

**Thursday

**Problems Appear**

*Ascendant on Saturn (PSR-NA)*

Slowdowns are the order of the day, brought on by extra work, added commitments, less firepower. This, too, will pass in a few days, but you have to go through it, not around it. You may be taken extra seriously about how you present yourself right now, so when in doubt, lighten up for the sake of all concerned.

An original focus on selling yourself this year, calling the shots as you see them, is tilting toward the money-mad, where it's the bottom line that tells the story and you simply follow the money, either through inclination or necessity. Whatever it takes, that's what it takes, and a little more can't hurt, either.

Putting up resistance and providing it are in the air, so be ready to find a way around issues not worth fighting for. Stubborn, hardheaded, intractable -- these might describe anyone you run across, as the forcible pursuit of pet opinions seems to be the order of the day. There are illusions in the air about what you do and what you think can happen for you, some of which may actually be true. # Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
